

2020 Hexagon Public Safety Users Group Virtual Conference

November 2020 Virtual

Full Conference Details & Online Registration: <https://www.hpsug.org>

We are proud to announce that the Hexagon Public Safety Users Group is having a Virtual Conference this year. While we usually have an in-person conference in November held at various cities throughout the United States, due to the COVID-19 Crisis, we opted for a virtual conference for 2020 instead.

The dates for the conference will be November 2nd–6th 2020. Our virtual conference will include trainings and sessions that center around our Hexagon CAD (Computer Aided Dispatch) software. The agencies attending will include 911 centers, Police, Fire and EMS agencies throughout North America and most of the attendees are administrative and IT personnel from those agencies.

This is our 4th Annual Conference and as usual, we have a large contingent of user-led presentations along with a variety of training opportunities from Hexagon. Our past conferences have been a huge success – made in a large part by our Great Sponsors!

To make this event a true success, we are seeking sponsors like your company to partner with the Hexagon Public Safety Users' Group. Supporting the HPSUG Conference offers your company several opportunities to showcase your services to a dedicated group of professionals from within the public safety field across the US and Canada.

Some of you have been sponsors in years past and know how great of an opportunity this is. This year, we have slimmed down our sponsorship levels a bit. We are offering a \$1000 Featured Sponsorship and a \$500 Sponsorship. Attached is the explanation of what you will get for each of the sponsorship's levels.

Please consider being part of this annual event and new experience. If I can be of any assistance with your decision by answering any questions or providing additional information, please contact me at JFry@dauphinc.org or visit our website at <https://www.hpsug.org>.

Your support is greatly appreciated, and I look forward to working with you.

James M. Fry
